Understanding AI

We are going to listen to the different presentations about AI in our TP groups.
The idea is to be able to listen to everyone but also to learn from what the others have been doing, their strengths and weaknesses. So here is a grid that we can use for our feedback at the end of each presentation. Moreover, I wanted to add that all the work you have been doing on that particular subject, Understanding AI, will most probably be used for your written exam at the end of the semester. So don't hesitate to make notes during the presentations!

List of criteria	From "0" to "5" / or Comments
Appropriate Body Language	
No notes	
Clarity of expression: Articulation Pronunciation Accent Volume of sound	
Self-Confidence Absence of hesitation	
Specific Vocabulary Dates Numbers	
Compliance with the instructions	
Pedagogical aspect of the presentations Clear explanations Definitions	
Ability to introduce and explain technical aspects/ explanations	
Interaction with the audience: real questions rhetorical questions repetitions rephrasing	
Group cohesion well prepared transitions between different parts Listen to one another	
Quality of the slideshow 1st slide Table of content Slide numbers Plan reminder Real concluding slide Spelling Balance between text and illustration	
Interest of the presentation Originality/ Humor...	
Pronunciation of "AI" **:)**
